

Made in USA

“WHY IS MY BILL SO LOW?”

INFRARED HEAT CAN SAVE YOUR CUSTOMERS UP TO **50% OFF THEIR GAS BILL.** IT'S **UNBELIEVABLE** BUT IT'S TRUE.

You see, **Heatstar by Enerco** infrared heating systems actually direct radiant heat to floor level objects, where they heat the surrounding air to the desired temperature, providing comfort, warmth and a tremendous cost savings.

In fact, the savings could actually pay back the costs of installation. Where multiple roll-up overhead doors are in use combined with forced air heating, the savings will be greatest.

On top of that, **Heatstar** is the only manufacturer to offer a 10 year warranty. Here is our big question: *What are you waiting for? Call today and let us help you design a cost saving infrared heating system for your next project.*

HEATSTAR

The **ONLY** manufacturer with a

10 YEAR warranty

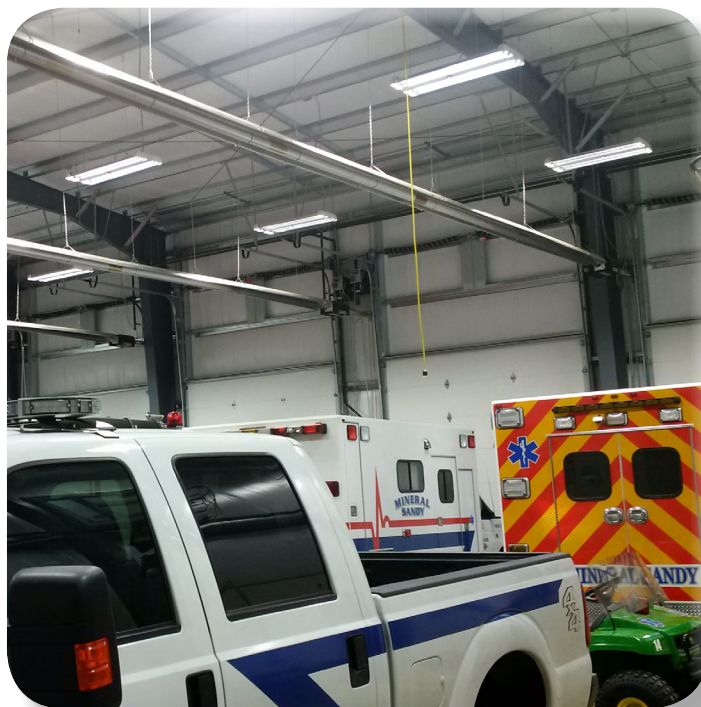

CSA Certified

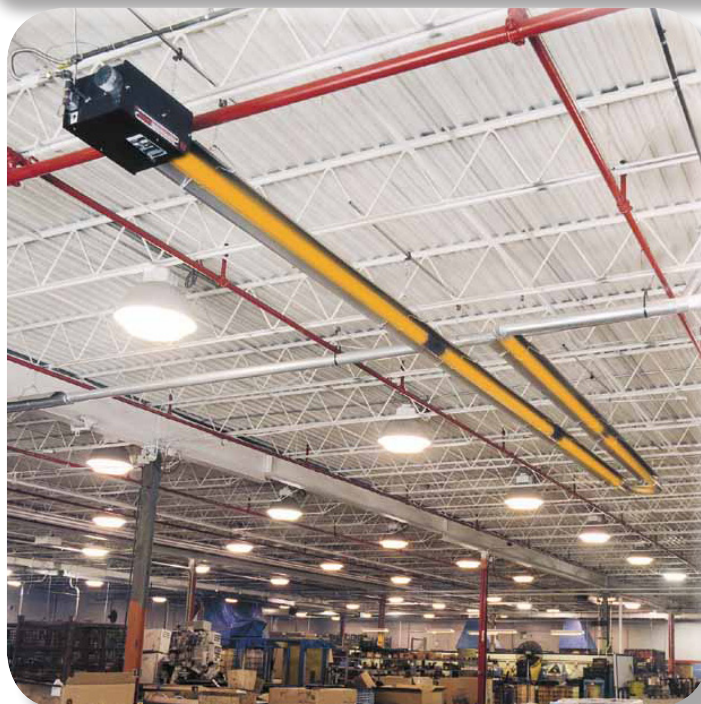

NPGA
NATIONAL PROPANE GAS ASSOCIATION

HARDI
HEATING, AIR CONDITIONING & REFRIGERATION DISTRIBUTION INTERNATIONAL

Heatstar Tube Heaters are available in single and dual stage.

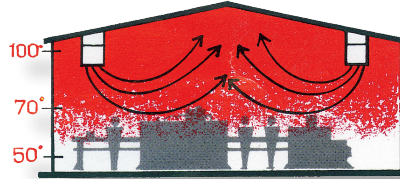

INNOVATIVE SOLUTIONS IN INFRARED HEATING TECHNOLOGY

© Enerco Group Inc. • 4560 W 160th street • Cleveland OH 44135 • 866.447.2194 • www.heatstarbyenerco.com

FEATURES:

- Available In 30 To 60 foot system lengths
- Horizontal or 45 ° angle of reflectors
- Stainless steel couplers
- Chrome plated hanging brackets
- Burner sight glass
- All components are name-brand non-proprietary
- 24 Volt or line voltage thermostat install option
- **Natural gas units include an LP gas conversion kit**

Warm Air Convection Heating

Forced warm air units heat from ceiling down. Wasted layers of heat stay at ceiling level, leaving floors cold, drafty, and uncomfortable.

Infrared Gas Heating

Enerco infrared heaters direct line-of-sight radiant heat to floor-level objects, which in turn, heat surrounding air to desired temperature. Personnel and objects at floor level enjoy instant, cost-saving comfort.
